

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. KHUDDASIKKHÂ AND MÛLASIKKHÂ.

EDITED BY

DR. EDWARD MÜLLER.

THE Khuddasikkhâ and Mûlasikkhâ form a short compendium of the Vinaya, mostly in verse, a few passages only being given in prose. The MSS. of the same are all written in the Burmese character, and there is also a Burmese edition which comprises the Bhikkhupâṭimokkha, the Bhikkhunipâṭimokkha and the Abbidhammatthasamgraha, printed at Rangoon in 1882; we possess, however, a Sinhalese commentary belonging to the twelfth century, which proves that the books must have been known in Ceylon at that time.

About the age of the books it is very difficult to form a certain opinion. The language is rather more modern than that of the Mahāvamsa, and exigencies of the metre have introduced forms which are anything but classical; for instance, the optative *de* from *dā*, the metathesis *harampacā* for *paccāharam*, III. 5, and the frequent elision of a beginning vowel after anusvāra, which only occurs in late texts (see Childers, s.v. *peyyālam*, and J.R.A.S. vol. xi. p. 112). The language is, however, not so artificial and not mixed with Sanskritisms to such an extent as that of the Dāthāvamsa.

Alwis, in his introduction to the Sidat Sangarāwa, p. cl, assigns a rather early date to Khuddasikkhâ and Mûlasikkhâ, viz. A.D. 350, but without any sufficient reasons. It seems that the language of the Sinhalese commentary has misled him, a language only little more modern than that of the rock inscription of Mihintale (see my Ancient Inscriptions in Ceylon, No. 121), the date of which Alwis, following Turnour (Ceylon Almanac for 1834, p. 137), has fixed in A.D. 262. It was, however, already shown by Paul

Goldschmidt that this cannot be correct, and that the inscription belongs to Mahinda III. at the end of the tenth and beginning of the eleventh century.

The question about the age of Khuddasikkhâ and Mûlasikkhâ is, of course, quite independent from that about the commentary, and so we may still consider the statement from the Burmese histories of the Piṭaka adduced by Forchhammer in his Report, p. 5, that a Sinhalese priest, by name Dhamma Siri, wrote the Mûlasikkhâ, and a confrere Mahâsâmi the Khuddasikkhâ, about 920 years after Gautama's death. In fact, the name of the author of Khuddasikkhâ is given as Dhammasiri in the last stanza but one :

tena Dhammasirîkena Tambapaṇṇiyaketunâ
therena racitâ dhammavinayaññûpasamsitâ.

Under these circumstances, I must leave it undecided for the present whether the date as given by Alwis and Forchhammer is correct, or whether we should in fixing it consider the language, which rather points to the sixth or seventh century. I will only mention besides that both works are referred to in the great inscription of Parâkramabâhu at the Galwihâra, Polonnaruwa (see my Ancient Inscriptions in Ceylon, No. 137), in lines 19 and 22, and that the great grammarian Moggallâna, living at the same time, is said to have written a *ṭikâ* on Khuddasikkhâ, which may have been the base of the Sinhalese commentary still in existence (see Note on the Pâli Grammarian Kaccâyana, by Lieut.-Col. G. E. Fryer, in his Subodhâlanakâra, p. 4).

At the end of the text will be found a comparative list of passages in Khuddasikkhâ and Mûlasikkhâ on one side and Oldenberg's Vinaya on the other. In spite of a careful investigation, I have not succeeded in identifying all the passages of the two texts given here, and I am driven to the conclusion that these passages are not contained in the text of the Vinaya, but are taken from the commentaries. In a few cases I have succeeded in identifying passages from Samanta Pâsâdikâ and Kankhâ Vitarani with the help of the quotations given in Minayeff's edition of the Pâtimokkha.
